## SAA CRANE CODE Part 9—VEHICLE HOISTS

This is a free 6 page sample. Access the full version online.

**STANDARDS ASSOCIATION OF AUSTRALIA**  
*Incorporated by Royal Charter*

This Australian standard was prepared by Committee ME/5, Cranes. It was approved on behalf of the Council of the Standards Association of Australia on 11 February 1987 and published on 6 April 1987.

---

The following interests are represented on Committee ME/5:

Association of Consulting Engineers, Australia  
Australian Crane Marketers Association Inc.  
Australian Institute of Building  
Bureau of Steel Manufacturers of Australia  
Confederation of Australian Industry  
Construction Equipment Importers and Manufacturers of Australia  
Crane Industry Council of Australia  
Department of Defence  
Department of Employment and Industrial Affairs, Qld  
Department of Housing and Construction  
Department of Industrial Relations and Employment, N.S.W.  
Department of Labour, S.A.  
Department of Labour, Vic.  
Department of Labour and Industry, Tas.  
Department of Mines and Energy, N.T.  
Department of Occupational Health, Safety and Welfare, W.A.  
Department of Territories  
Electricity Supply Association of Australia  
Maritime Services Board of New South Wales  
Metal Trades Industry Association of Australia  
Metropolitan Water, Sewerage and Drainage Board, N.S.W.  
Port of Melbourne Authority  
Railways of Australia Committee  
Telecom Australia  
University of New South Wales

---

**Review of Australian Standards.** To keep abreast of progress in industry, Australian standards are subject to periodic review and are kept up-to-date by the issue of amendments or new editions as necessary. It is important therefore that standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all SAA publications will be found in the Catalogue of SAA Publications; this information is supplemented each month by SAA's journal 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn standards.

Suggestions for improvements to Australian standards, addressed to the head office of the Association, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian standard should be made without delay in order that the matter may be investigated and appropriate action taken.

---

*This standard was issued in draft form for comment as DR 84246.*

## PREFACE

This standard was prepared by the Association's Committee on Cranes. It covers specific requirements for vehicle hoists and is to be read in conjunction with AS 1418.1, SAA Crane Code, Part 1—General Requirements.

In the preparation of the standard, cognizance was taken of comparable current standards in the United Kingdom and the United States of America.
