

## Handbook

# **Hospital acquired infections— Engineering down the risk**

This Handbook was prepared under the responsibility of Committee H-000, Health and Food Standards Sector Board. It was published on 20 March 2003.

---

The following are represented on Committee H-000:

Accident Compensation Corporation, New Zealand  
Alfred Hospital, Melbourne  
Australian Dental Association  
Australian Medical Association  
Australian Patient Safety Foundation  
Australian Quarantine & Inspection Service (Commonwealth)  
Canterbury Health, New Zealand  
Michael Legg & Associates  
Ministry of Health, New Zealand  
Ministry of Consumer Affairs, New Zealand  
Safe Food New South Wales  
Sisters of Charity Health Services  
Steritech  
St Vincent's Private Hospital, Sydney  
System Innovation in Health  
University of Queensland  
University of Sydney

Additional interests participating in the preparation of this Standard:

Australian Infection Control Association  
Australian Institute of Environmental Health  
Australian Society for Infectious Diseases  
Australian Society of Microbiology  
Canberra Hospital  
Institute of Hospital Engineering  
Queensland Health  
Royal Australian Institute of Architects

---

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about Standards can be found by visiting the Standards Australia web site at [www.standards.com.au](http://www.standards.com.au) and looking up the relevant Standard in the on-line catalogue.

Alternatively, the printed Catalogue provides information current at 1 January each year, and the monthly magazine, *The Australian Standard*, has a full listing of revisions and amendments published each month.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at [mail@standards.com.au](mailto:mail@standards.com.au), or write to the Chief Executive, Standards Australia International Ltd, GPO Box 5420, Sydney, NSW 2001.

## PREFACE

This Handbook was prepared by a Working Group in the Health Division of Standards Australia.

Account has been taken of the following publications:

*Design Considerations for Infection Control HOSPLAN*, New South Wales Hospitals Planning Advisory Centre April 1989.

*Capital Works Guidelines: Planning, Infection Control, Sterilising*, Capital Works Branch, Queensland Health 1999.

*Guidelines for the Classification and Design of Isolation Rooms in Health Care Facilities*, Standing Committee on Infection Control, Department of Human Services, Victoria, 2000.

Due acknowledgment is given to N.S.W. Health Department, Department of Human Services, Victoria, and Queensland Health for use of their documents in this Handbook.

The following organizations comprised the Working Group:

Australian Infection Control Association

Australian Institute of Environmental Health

Australian Society for Infectious Diseases

Australian Society of Microbiology

Canberra Hospital

Institute of Hospital Engineering

Queensland Health

Royal Australian Institute of Architects

Standards Australia acknowledges the valued contribution of the members of the Working Group in the preparation of this Handbook.

## CONTENTS

	<i>Page</i>
FOREWORD .....	5
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE .....	7
1.2 REFERENCED DOCUMENTS .....	7
1.3 DEFINITIONS AND TERMINOLOGY .....	8
SECTION 2 PATIENT ACCOMMODATION	
2.1 GENERAL .....	9
2.2 TYPES OF ROOMS .....	9
SECTION 3 GENERAL PRINCIPLES/REQUIREMENTS FOR DESIGN AND CONSTRUCTION OF HEALTH CARE FACILITIES	
3.1 GENERAL .....	11
3.2 DESIGN AND CONSTRUCTION.....	11
SECTION 4 HANDWASHING FACILITIES	
4.1 GENERAL .....	16
4.2 HANDWASHING BASINS .....	16
SECTION 5 REQUIREMENTS FOR ROOMS SUITABLE FOR INFECTION CONTROL	
5.1 GENERAL PRINCIPLES .....	19
5.2 TYPES OF ROOMS .....	20
5.3 SUGGESTED DESIGN OF ROOMS SUITABLE FOR INFECTION CONTROL.....	20
5.4 PRESSURE GRADIENTS .....	20
5.5 VENTILATION/EXHAUST SYSTEM.....	21
5.6 SUPPLY AIR AND EXHAUST DUCT DESIGN .....	21
5.7 AIR DISTRIBUTION .....	21
5.8 AIR CHANGE RATES .....	22
5.9 MONITORING OF ROOM PRESSURE .....	22
5.10 METHODS OF VARYING ROOM PRESSURE.....	23
5.11 QUARANTINE ISOLATION ROOMS .....	23
5.12 MINIMUM FRESH AIR REQUIREMENTS .....	23
5.13 MINIMIZING OF ROOM AIR LEAKS—TYPE 5 (RESPIRATORY ISOLATION) ROOMS .....	23
5.14 ROUTINE PERFORMANCE MONITORING AND MAINTENANCE.....	23
5.15 ENERGY CONSERVATION .....	24
5.16 PLANT BACK-UP SYSTEMS .....	24
5.17 INTERIOR OF ROOMS .....	24
5.18 ROOM RENOVATION OR CONVERSION.....	25
5.19 CHECKLIST FOR ROOMS SUITABLE FOR INFECTION CONTROL PURPOSES.....	25
