AS/NZS 62386.103:2020

This Joint Australian/New Zealand Standard™ was prepared by Joint Technical Committee EL-041, Lamps and Related Equipment. It was approved on behalf of the Council of Standards Australia on 4 November 2020 and by the New Zealand Standards Approval Board on 4 November 2020.

This Standard was published on 20 November 2020.

The following are represented on Committee EL-041:

- Australian Industry Group
- Better Regulation Division
- CHOICE
- Consumer Electronics Suppliers Association
- Consumers' Federation of Australia
- Department of Industry, Science, Energy and Resources
- Electrical Compliance Testing Association of Australia
- Electrical Regulatory Authorities Council
- Energy Efficiency & Conservation Authority of New Zealand
- IES: The Lighting Society
- Joint Accreditation System of Australia and New Zealand
- Joint Accreditation System of Australia and New Zealand — New Zealand
- Lighting Council Australia
- Lighting Council New Zealand
- Master Electricians Australia
- Master Electricians NZ
- WorkSafe New Zealand

This Standard was issued in draft form for comment as DR AS/NZS 62386.103:2020.

Preface

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee EL-041, Lamps and Related Equipment.

The objective of this document is to specify control devices in a bus system for control by digital signals of electronic lighting equipment with the addition of DC supplies.

Tests in this document are type tests. Requirements for testing individual products during production are not included.

This document is an adoption with national modifications, and has been reproduced from, IEC 62386-103:2014+AMD1:2018 CSV (ED. 1.1), *Digital addressable lighting interface — Part 103: General requirements — Control devices*. The modifications are additional requirements and are set out in [Appendix ZZ](#), which has been added at the end of the source text.

[Appendix ZZ](#) lists the variations to IEC 62386-103:2014+AMD1:2018 CSV (ED. 1.1), for the application of this document in Australia and New Zealand.

As this document has been reproduced from an International Standard, the following applies:

- (a) In the source text “this Part of IEC 62386” should read “this document”.
- (b) A full point substitutes for a comma when referring to a decimal marker.

Australian or Australian/New Zealand Standards that are identical adoptions of international normative references may be used interchangeably. Refer to the online catalogue for information on specific Standards.

The terms “normative” and “informative” are used in Standards to define the application of the appendices or annexes to which they apply. A “normative” appendix or annex is an integral part of a Standard, whereas an “informative” appendix or annex is only for information and guidance.

This is a free 5 page sample. Access the full version online.
