

Australian Standard[®]

Cranes—Safe use

**Part 7: Builders' hoists and
associated equipment**

This Australian Standard was prepared by Committee ME/5, Cranes. It was approved on behalf of the Council of Standards Australia on 13 December 1995 and published on 5 March 1996.

The following interests are represented on Committee ME/5:

Association of Consulting Engineers, Australia
Australian Chamber of Manufactures
Australian Institute of Building
Bureau of Steel Manufacturers of Australia
Construction and Mining Equipment Association of Australia
Crane Industry Council of Australia
Department of Defence (Commonwealth)
Department of Employment, Vocational Education, Training and Industrial Relations, Qld
Department of Industrial Affairs, S.A.
Department of Occupational Health, Safety and Welfare, W.A.
Health and Safety Organisation, Vic.
Institution of Engineers, Australia
Lift Manufacturers Association of Australia
Metal Trades Industry Association of Australia
Railways of Australia Committee
Tasmania—Development and Resources
Telstra, Australia
University of New South Wales
WorkCover, N.S.W.
Work Health Authority, N.T.

Review of Australian Standards. To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.

This Standard was issued in draft form for comment as DR 94437.

PREFACE

This Standard was prepared by the Joint Standards Australia/New Zealand Committee ME/5 on Cranes to cover specific requirements for the safe use of builders' hoists and associated equipment. This Standard is a result of a consensus among representatives on the Joint Committee to produce it as an Australian Standard.

To assist intended users of the two different types of builders' hoists, viz. materials-only hoists and personnel and materials hoists, the operating and testing requirements for each type are contained in separate sections of this Standard. It is intended for use in conjunction with AS 2550.1, *Crane—Safe use, Part 1: General requirements*. Additional requirements for *Cranes—Safe use* will be covered by subsequent parts.

Published Standards in the series are:

AS

2550	Cranes—Safe use
2550.1	Part 1: General requirements
2550.4	Part 4: Tower cranes
2550.5	Part 5: Mobile and vehicle-loading cranes
2550.6	Part 6: Guided storing and retrieving appliances
2550.7	Part 7: Builders' hoists and associated equipment (<i>this Standard</i>)
2550.10	Part 10: Elevating work platforms
2550.15	Part 15: Concrete placing equipment

It is intended to publish the following parts:

- (a) Special purpose appliances.
- (b) Vehicle hoists.
- (c) Building maintenance units.
- (d) Mast climbing work platforms.

The term 'informative' has been used in this Standard to define the application of the appendix to which it applies. An 'informative' appendix is only for information and guidance.

© Copyright — STANDARDS AUSTRALIA

Users of Standards are reminded that copyright subsists in all Standards Australia publications and software. Except where the Copyright Act allows and except where provided for below no publications or software produced by Standards Australia may be reproduced, stored in a retrieval system in any form or transmitted by any means without prior permission in writing from Standards Australia. Permission may be conditional on an appropriate royalty payment. Requests for permission and information on commercial software royalties should be directed to the head office of Standards Australia.

Standards Australia will permit up to 10 percent of the technical content pages of a Standard to be copied for use exclusively in-house by purchasers of the Standard without payment of a royalty or advice to Standards Australia.

Standards Australia will also permit the inclusion of its copyright material in computer software programs for no royalty payment provided such programs are used exclusively in-house by the creators of the programs.

Care should be taken to ensure that material used is from the current edition of the Standard and that it is updated whenever the Standard is amended or revised. The number and date of the Standard should therefore be clearly identified.

The use of material in print form or in computer software programs to be used commercially, with or without payment, or in commercial contracts is subject to the payment of a royalty. This policy may be varied by Standards Australia at any time.

CONTENTS
