

Australian Standard<sup>®</sup>

---

**Electrical installations—  
Surface mines and associated  
processing plant**

**Part 3: General requirements for  
equipment and ancillaries**

---

This Australian standard was prepared by Committee EL/33, Electrical Installations for Outdoor Sites Under Heavy Conditions (Including Open-cast Mines and Quarries). It was approved on behalf of the Council of the Standards Association of Australia on 27 February 1987 and published on 4 May 1987.

---

The following interests are represented on Committee EL/33:

Association of Consulting Engineers Australia  
Australian Electrical and Electronic Manufacturers Association  
Australian Institute of Mining and Metallurgy  
Confederation of Australian Industry  
Department of Industrial Relations, N.S.W.  
Department of Mines, Qld  
Department of Mines, Tas.  
Electricity Supply Association of Australia  
Mining Interests

---

**Review of Australian Standards.** To keep abreast of progress in industry, Australian Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Australian Standards and related publications will be found in the Standards Australia Catalogue of Publications; this information is supplemented each month by the magazine 'The Australian Standard', which subscribing members receive, and which gives details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Australian Standards, addressed to the head office of Standards Australia, are welcomed. Notification of any inaccuracy or ambiguity found in an Australian Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
