

Australian/New Zealand Standard™

Guard and patrol security services

AS/NZS 4421:2011

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-031, Intruder Alarm Equipment and Installations. It was approved on behalf of the Council of Standards Australia on 21 September 2011 and on behalf of the Council of Standards New Zealand on 19 September 2011. This Standard was published on 18 October 2011.

The following are represented on Committee EL-031:

Australian Industry Group
Australian Security Industry Association Limited
Engineers Australia
Insurance Council of Australia Limited
Insurance Council of New Zealand
New Zealand Security Association
NSW Police
Security Providers Association of Australia Limited
Victoria Police
Victorian Security Institute

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.saiglobal.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

This Standard was issued in draft form for comment as DR 10025.

Australian/New Zealand Standard™

Guard and patrol security services

First published as AS 4421—1996.
Jointly revised and designated AS/NZS 4421:2011.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee EL-031, Intruder Alarm Equipment and Installations, to supersede AS 4421—1996, *Guards and Patrols*.

This Standard acknowledges achievements made by the security industry since the publication of the previous Standard and reflects the growing complexity of the industry as well as the more demanding nature of the role of security officer.

It has been revised at the request of providers of protective security services to better reflect the way the industry now operates. This Standard specifies the perceived minimum requirements that are attainable by all security companies, regardless of size, and that are necessary to provide a professional and competent service to clients.

This Standard is intended to contribute to the delivery of compliant guard and patrol security services.

This Standard may be of use to organizations that have in-house (proprietary) security officers as a guidance document or to benchmark their services to comparable providers in the security industry.

The terms ‘normative’ and ‘informative’ have been used in this Standard to define the application of the appendix to which they apply. A ‘normative’ appendix is an integral part of a Standard, whereas an ‘informative’ appendix is only for information and guidance.

CONTENTS

	<i>Page</i>
SECTION 1 SCOPE AND GENERAL	
1.1 SCOPE.....	4
1.2 REFERENCED DOCUMENTS.....	4
1.3 DEFINITIONS.....	4
SECTION 2 GOVERNANCE	
2.1 GENERAL.....	7
2.2 FINANCES.....	7
