Date of Issuance: January 13, 2009

This Code will be revised when the Society approves the issuance of a new edition. There will be no addenda issued to this edition.

ASME issues written replies to inquiries concerning interpretations of technical aspects of this Code. Periodically certain actions of the ASME PTC 25 Committee may be published as Cases. Cases and interpretations are published on the ASME Web site under the Committee Pages at <http://cstools.asme.org> as they are issued.

ASME is the registered trademark of The American Society of Mechanical Engineers.

This code or standard was developed under procedures accredited as meeting the criteria for American National Standards. The Standards Committee that approved the code or standard was balanced to assure that individuals from competent and concerned interests have had an opportunity to participate. The proposed code or standard was made available for public review and comment that provides an opportunity for additional public input from industry, academia, regulatory agencies, and the public-at-large.

ASME does not “approve,” “rate,” or “endorse” any item, construction, proprietary device, or activity.

ASME does not take any position with respect to the validity of any patent rights asserted in connection with any items mentioned in this document and does not undertake to insure anyone utilizing a standard against liability for infringement of any applicable letters patent, nor assumes any such liability. Users of a code or standard are expressly advised that determination of the validity of any such patent rights, and the risk of infringement of such rights, is entirely their own responsibility.

Participation by federal agency representative(s) or person(s) affiliated with industry is not to be interpreted as government or industry endorsement of this code or standard.

ASME accepts responsibility for only those interpretations of this document issued in accordance with the established ASME procedures and policies, which precludes the issuance of interpretations by individuals.

No part of this document may be reproduced in any form,  
in an electronic retrieval system or otherwise,  
without the prior written permission of the publisher.

# CONTENTS

Notice .....	vi
Foreword .....	vii
Committee Roster .....	viii
Correspondence With the PTC 25 Committee .....	ix
Introduction .....	x
<b>Part I      General</b> .....	1
<b>Section 1   Object and Scope</b> .....	1
1-1      Object .....	1
1-2      Scope .....	1
1-3      Measurement Uncertainty .....	1
1-4      General .....	1
<b>Section 2   Definitions and Description of Terms</b> .....	3
2-1      Purpose .....	3
2-2      General .....	3
2-3      Types of Devices .....	3
2-4      Parts of Pressure Relief Devices .....	4
2-5      Dimensional Characteristics — Pressure Relief Valves .....	5
2-6      Dimensional Characteristics — Nonreclosing Pressure Relief Devices .....	7
2-7      Operational Characteristics of Pressure Relief Devices .....	7
2-8      Description of Terms .....	8
<b>Part II      Flow Capacity Testing</b> .....	11
<b>Section 3   Guiding Principles</b> .....	11
3-1      Items on Which Agreement Shall Be Reached .....	11
3-2      Qualification of Person Supervising the Test .....	11
3-3      Responsibility of Person Supervising the Test .....	11
3-4      Test Apparatus .....	11
3-5      Preliminary Tests .....	11
3-6      Spare Instruments .....	11
3-7      Calibration of Instruments .....	11
3-8      Metering Sections .....	12
3-9      Flow Resistance Test Rigs .....	12
3-10     Adjustments During Tests .....	14
3-11     Records and Test Results .....	14
3-12     Measurement Uncertainty .....	14
<b>Section 4   Instruments and Methods of Measurements</b> .....	15
4-1      General .....	15
4-2      Fluid Conditions, Test Conditions, and Instrumentation .....	15
4-3      Testing With Steam, Pressure Relief Device Discharging to Atmospheric Pressure .....	18
4-4      Testing With Gas or Air, Pressure Relief Device Discharging to Atmospheric Pressure .....	23
4-5      Testing With Liquids, Pressure Relief Devices Discharging to Atmospheric Pressure .....	24
4-6      Testing With Steam, With Back Pressure Above Atmospheric .....	25
4-7      Testing With Gas or Air, With Back Pressure Above Atmospheric .....	27
4-8      Testing With Liquids, With Back Pressure Above Atmospheric .....	29

4-9	Testing With Gas or Air, Nonreclosing Pressure Relief Device Flow Resistance Method .....	30
4-10	Testing Nonreclosing Pressure Relief Devices to Determine a Set Pressure for Incompressible Fluids .....	31
<b>Section 5</b>	<b>Computation of Results</b> .....	<b>34</b>
5-1	Correction of Measured Variables .....	34
5-2	Review of Instrument Readings .....	34
5-3	Use of Equation Symbols .....	34
5-4	Density .....	34
5-5	Capacity Calculations .....	34
<b>Section 6</b>	<b>Test Summary Report Form</b> .....	<b>48</b>
6-1	General Instructions .....	48
6-2	Part I: General Information .....	48
6-3	Part II: Summary of Results .....	48
6-4	Part III: Description of Device Under Test .....	48
6-5	Part IV: Observed Data and Computed Results .....	48
6-6	Part V: Test Conditions and Corrections Agreements .....	48
6-7	Part VI: Test Methods and Procedures .....	49
6-8	Part VII: Supporting Data .....	49
6-9	Part VIII: Graphical Presentation of Back-Pressure Test Results .....	49
<b>Part III</b>	<b>In-Service and Bench Testing</b> .....	<b>54</b>
<b>Section 7</b>	<b>Guiding Principles</b> .....	<b>54</b>
7-1	Items on Which Agreement Shall Be Reached .....	54
7-2	Qualification of Person Conducting the Test .....	54
7-3	Responsibility of Person Conducting the Test .....	54
7-4	Test Apparatus .....	54
7-5	Preliminary Training .....	54
7-6	Spare Instruments .....	54
7-7	Calibration of Instruments .....	54
7-8	Adjustments During Test .....	55
7-9	Records and Test Results .....	55
7-10	Measurement Uncertainty .....	55
<b>Section 8</b>	<b>Instruments and Methods of Measurements</b> .....	<b>56</b>
8-1	General .....	56
8-2	Instrumentation .....	56
8-3	In-Service Testing Procedures .....	59
8-4	Bench Testing Procedures .....	61
8-5	Seat Tightness Test .....	61
<b>Section 9</b>	<b>Computation of Results</b> .....	<b>62</b>
9-1	Correction of Measured Variables .....	62
9-2	Review of Instrument Readings .....	62
9-3	Computation of Operational Characteristics .....	62
<b>Section 10</b>	<b>Test Summary Report Form</b> .....	<b>63</b>
10-1	General Instructions .....	63
10-2	Part I: General Information .....	63
10-3	Part II: Summary of Results .....	63
10-4	Part III: Description of Valve Under Test .....	63
10-5	Part IV: Observed Data and Computed Results .....	63
10-6	Part V: Contract and Agreed Test Conditions Corrections .....	63
10-7	Part VI: Test Methods and Procedures .....	63
10-8	Part VII: Supporting Data .....	63
